CREAM
BAKING POWDER

A PURE, healthful, grape cream of tartar powder, the only kind that can be used without impairing the healthfulness of the food. Makes the biscuit, cake and pastry more digestible and wholesome. Absolutely free from alum and phosphate of lime.

Chemical analyses show the low priced powders made of alum to contain large quantities of sulphuric acid, and that a portion of the alum from alum baking powders remains unchanged in the food! You cannot afford to take alum and sulphuric acids into your stomach.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary advise that it is, in fact, the best and most authoritative dictionary ever published, and that it is now being revised and enlarged in every part, with the purpose of adapting it to meet the needs and requirements of another generation. We are of the opinion that this alteration, most clearly and accurately described in the work that has been accomplished and the result that has been reached, is the most important and valuable improvement that has been made in the history of the dictionary. It is a work that is not only a source of information, but a source of inspiration and a source of guidance. It is a work that is not only a source of information, but a source of inspiration and a source of guidance. It is a work that is not only a source of information, but a source of inspiration and a source of guidance.

PLANT WILD BROTHERS TREES

Nothing will improve your property and surroundings and add to their value and your pleasure at so small a cost as Shade Trees, Evergreens and Shrubs.
Shade trees should form the foundation, with irregular groups or masses of shrubs against buildings, fences or property lines, or as borders along walks or drives. The Evergreens add variety and beauty both winter and summer.

FRUIT TREES should form a part of the planting. Plant early during favorable weather and they will be better established when spring growth begins. Almost every home has plenty of room to grow their own GRAPE, RASPBERRY, STRAWBERRY, and other small fruits, Currants, Gooseberries, Asparagus, etc. Do not delay until the busy season causes it to be put off another year.

WE EMPLOY NO AGENTS. Send for our descriptive catalog and buy direct from the nursery.
